## Notes & Records of the Royal Society

**Editor**
Professor Robert Fox

**Editorial Coordinator**
Jennifer Kren

### Editorial Board
- Robert Fox, Editor, Museum of the History of Science, University of Oxford
- Jonathan Ashmore, Department of Neuroscience, Physiology and Pharmacology & UCL Ear Institute, University College London
- David Cahan, Department of History, University of Nebraska-Lincoln
- Pratik Chakrabarti, School of History, University of Kent
- Richard Fortey, Department of Palaeontology, Natural History Museum
- Uta Frith, Institute of Cognitive Neuroscience & Department of Psychology, University College London
- Michael Hunter, Birkbeck College, University of London
- Jeremy Black, Institute of Historical Research, University of London
- Sharon Macdonald, Department of History, University College London
- Rachel E. Gill, Department of Psychology, University College London
- Simon Werrett, Department of Science and Technology Studies, University College London
- Jeffre-ray A. Johnson, Department of History, Villanova University
- Sachiko Kusukawa, Trinity College, Cambridge
- Holger Maehle, Centre for the History of Medicine and Disease, Durham University
- Malcolm Nicolson, Department of Economic and Social History, University of Glasgow
- Charlotte Seagrave, School of History, University of Kent
- Jacqueline Stedall, Queen’s College, University of Oxford
- James Sumner, Faculty of Life Sciences, The University of Manchester
- Helmut Trischler, Forschungsinstitut des Deutsches Museums
- Malcolm Nicolson, Department of Economic and Social History, University of Glasgow
- Charlotte Seagrave, School of History, University of Kent
- Jacqueline Stedall, Queen’s College, University of Oxford
- James Sumner, Faculty of Life Sciences, The University of Manchester
- Helmut Trischler, Forschungsinstitut des Deutsches Museums
- Simon Werrett, Department of Science and Technology Studies, University College London

Typeset in India by Techset Composition Limited, Salisbury, UK. Printed in the UK by Cambrian Printers.

This paper meets the requirements of ISO 9706:1994(E) and ANSI/IEEE Z39.48-1992 (Permanence of Paper) effective with volume 46, issue 1, 1992.

Notes & Records of the Royal Society is published four times a year for US$274 per year by the Royal Society, and is distributed in the USA by Mercury International as mailing agent. Periodicals postage paid at Railway, NJ and additional mailing offices. POSTMASTER: Send address changes to Mercury International, 365 Blair Road, Avenel, NJ 07001, USA.

### Guidance for Authors

**Articles**

Notes and Records is an international journal which publishes original research in the history of science, technology and medicine up to and including the 21st century.

In addition to publishing peer-reviewed research articles, Notes and Records welcomes recollections or autobiographical accounts written by Fellows and others recording important moments in science from the recent past. It also includes book reviews and news of research projects and online and other resources of interest to historians.

Submitted papers must be the author’s own and original work, and must not have been published previously, nor be under consideration for publication elsewhere.

Contributions should normally not exceed 8000 words and may be shorter. All Royal Society journals require figures in electronic format. To ensure high-quality reproduction, and to prevent delays in publication, it is essential that figures be supplied in the correct format. Hand-drawn illustrations are not acceptable. Authors are responsible for obtaining permission to reproduce artwork for which they do not hold copyright.

### Electronic Submission Details

Authors should prepare papers in accordance with our Instructions to Authors (see http://rsnr.royalsocietypublishing.org) and submit them electronically via the Internet. Visit our website for guidance on preparation.

The Royal Society, the national academy of science of the UK and the Commonwealth, is at the cutting edge of scientific progress. We support many top young scientists, engineers and technologists, influence science policy, debate scientific issues with the public and much more. We are an independent, charitable body and derive our authoritative status from over 1400 Fellows and Foreign Members.

Our mission: to expand knowledge and further the role of science and engineering in making the world a better place.

The Royal Society’s strategic priorities are to:
- invest in future scientific leaders and in innovation,
- influence policymaking with the best scientific advice,
- invigorate science and mathematics education,
- increase access to the best science internationally, and
- inspire an interest in the joy, wonder and excitement of scientific discovery.
