

# NOTES AND RECORDS

THE ROYAL SOCIETY JOURNAL OF THE HISTORY OF SCIENCE

*Notes Rec.* is an international journal which publishes original research in the history of science, technology and medicine.

In addition to publishing peer-reviewed research articles in all areas of the history of science, technology and medicine, *Notes Rec.* welcomes other forms of contribution including: research notes elucidating recent archival discoveries (in the collections of the Royal Society and elsewhere); news of research projects and online and other resources of interest to historians; book reviews, including essay reviews, on material relating primarily to the history of the Royal Society; recollections or autobiographical accounts written by Fellows and others recording important moments in science from the recent past.

*Notes Rec.* is fully compliant with the open access requirements of a range of funders including the HEFCE (REF 2020), AHRC, Scottish Funding Council, Wellcome Trust and European Commission. It is designated as “green” on the SHERPA/ROMEO website. The Wellcome Library has made funds available to pay the open access publishing costs for publications that result from research based on the Library’s collections - more information can be found on its website.
